SOLUTION/TECHNOLOGY OVERVIEW

The V700 Body-Worn Camera (BWC) captures clear video and audio of every encounter from the user's perspective. Its continuous-operation capabilities allow constant recording, enabling the user to capture every detail of each situation and create a reliable library of evidence for case-building and review. The V700 can stream live video and report real-time Global Positioning System (GPS) location through built-in Long Term Evolution (LTE) directly to the Motorola Solutions CommandCentral suite.

The Secure Voice and Video Converged (SVX) is a video enabled radio speaker (VRSM) microphone. It is designed to provide a mission critical wireless radio speaker mike capability for APX NEXT and APX N70 radios as well as public safety grade body worn evidential video and audio recording.

The V700 and SVX use an external battery that powers the device and is charged via Transfer Station or USB docking station (V700) and the Smart Dock (SVX).

NOTE: The customer receives a battery with the device purchase.

SERVICE CONSIDERATIONS & PREREQUISITES

Battery Subscription is an optional service that provides additional batteries per devices in the order for a duration as selected by the Customer. The subscription includes:

- Remote technical support - support during normal business hours (7 AM to 7 PM CST Mon-Fri) on operational issues that require troubleshooting expertise
 - Upfront battery at time of device purchase
 - Initial battery refresh per device starting at eighteen (18) months
 - One battery refresh per device every two (2) years of subscription after initial refresh
- Service Delivery information is available via the Service Offer Delivery Package ([SODP](#)), and Statement of Work ([SOW](#))

PREREQUISITE:

- There are no pre-reqs for this service.

HOW TO SELL (Sales/MRs/ASM/CAM/CSE)

The batteries and Battery Subscription will be offered to the North America (NA) ASTRO Federal and non-Federal State and Local Market and quoted and sold through the MSI direct sales channel as well as the Manufacturing Resellers (MRs) who have completed specific prerequisites. More detailed sales information can be found at the [Subscription Site](#) and [Offer Management Site](#).

HOW TO QUOTE (Sales/MRs, PbM, Pre-Sales Eng)

A request for a proposal/quote is performed in Salesforce, using the Configure Price Quote ([CPQ](#)) tool. CPQ has a section for Battery Subscription when ordering the V700 or SVX device.

HOW TO ORDER (Sales/MRs, PbM, and OM)

Orders are submitted from CPQ. The Battery subscription part number, **SV00S05622A (V700)** or **SSV00S05623A (SVX)**, will be present in the order. When the customer is eligible for a refresh, Customer Hub is used to request a refresh.

HOW TO IMPLEMENT/DEPLOY (Customer)

When the customer is eligible for a refresh, Customer Hub is used to request a refresh. A Salesforce case is created to Video Order Management who validates the eligibility and then places an order for batteries.

TRANSITION TO SERVICE

A subscription contract is created automatically during the order fulfillment process. The quantity of devices will be listed within the contract.

HOW TO SUPPORT

For technical support to evaluate the battery, support is available by calling **1-800-MSI-HELP** and saying "Technical Support" and then "Mobile Video", "V700" or "SVX". Support is also available by email:

MobileVideoTechnicalSupport@motorolasolutions.com.

For non-technical support on the battery subscription, ordering, or Customer Hub, support is available by calling **1-800 422 4210**.

All issues are supported during normal business hours (7 AM - 7 PM Mon-Fri CST = technical, 8 AM - 5 PM Mon-Fri CST = non-technical). Entitlement will be performed using the order information.

RENEWALS & TERMINATION

The service is not renewable.

ROLES AND RESPONSIBILITIES

The following teams support the delivery of the offer

- CMSO Triage - initial MSI contact for technical support,
- Customer Care - escalation for non-technical support on the subscription, ordering, and Customer Hub
- Mobile Video Technical Support Operations (TSO) - escalation for technical support
